

GENERAL INFORMATION:

The applicant seeks approval for:

Certificate of Appropriateness for the replacement of a casement window with a slider window

STAFF RECOMMENDATION:

The Historic Preservation Office recommends APPROVAL of the proposed scope of work based on the following recommendations:

The Design Guidelines for El Paso's Historic Districts, Sites, and Properties recommend the following:

- *If windows are damaged beyond repair, replacement windows should match the type (such as double hung), style (for example six panes over six panes), and finish (paint).*
- *Doors and windows are considered important character-defining features because of significant detailing.*
- *Installation of windows similar to the original in appearance and structural purpose, regardless of construction materials is permitted.*
- *Windows in secondary facades shall be reviewed on a case by case basis.*
- *Do not use single pane picture windows or horizontal sliding windows if they are not the original window types.*
- *When repair is not feasible, door and window products will be reviewed on an individual basis using the following criteria:*
 - a. Architectural and historical compatibility*
 - b. Comparison to original profile*
 - c. Level of significance of original doors and windows to the architectural style of the building.*
 - d. Three dimensional exterior applied muntins that simulate or match the original muntins may be approved. Single dimension interior applied muntins are not appropriate.*

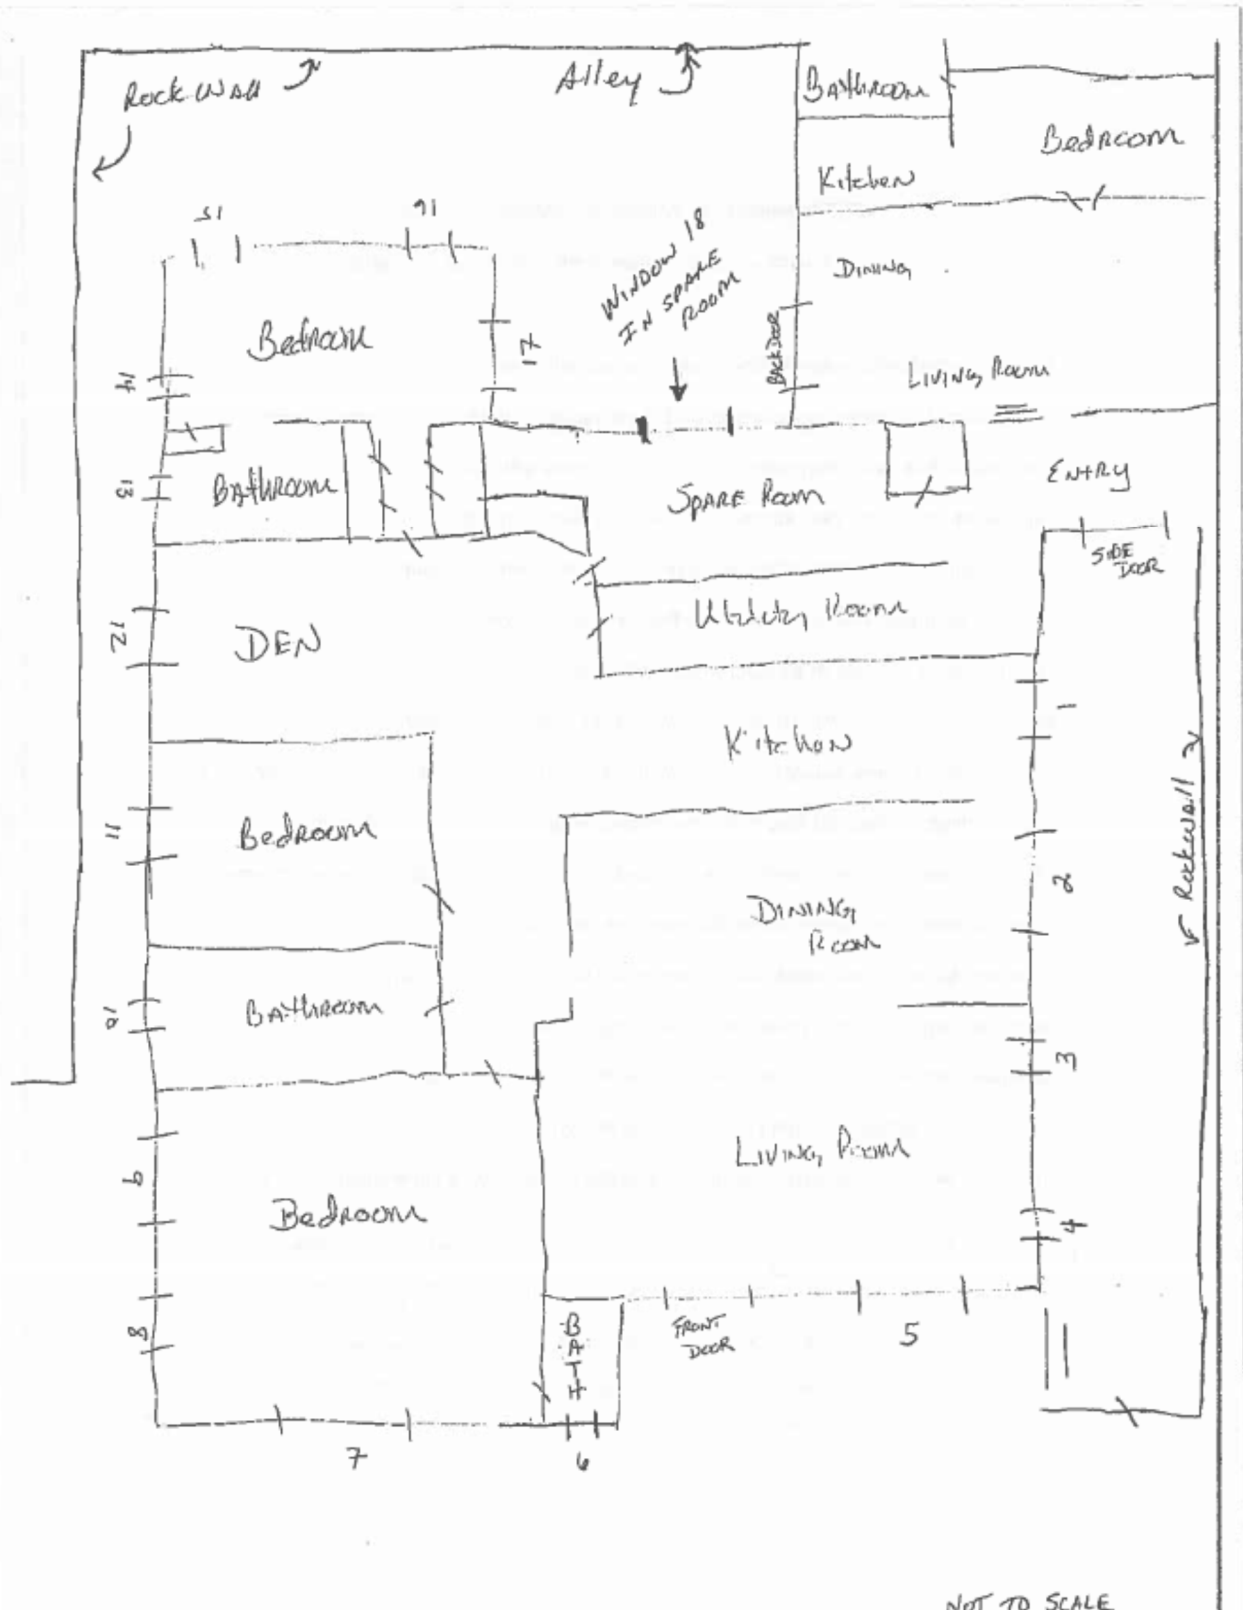

The Secretary of the Interior's Standards for Rehabilitation recommend the following:

- *Where the severity of deterioration requires replacement of a distinctive feature, the new feature will match the old in design, color, texture, and, where possible, materials.*
- *Deteriorated historic features shall be repaired rather than replaced. Where the severity of deterioration requires replacement of a distinctive feature, the new feature shall match the old in design, color, texture, and other visual qualities and, where possible, materials. Replacement of missing features shall be substantiated by documentary, physical, or pictorial evidence.*
